

FROST PROTECTION HEATING CABLE WITH THERMOSTAT

10 W/m | 230 V

Reliable antifreeze protection for all kinds of water pipes: Frost protection heating cables with thermostat prevent water pipes from freezing and bursting open. Effective protection from consequential damages and high repair costs.

TECHNICAL SPECIFICATIONS

| Nominal voltage: | 230 Volt | |
|-----------------------------------|------------------|--|
| Output: | 10 W/m | |
| Cold tail connection: | 2,00 m 📃 | |
| Minimum installation temperature: | 5 °C | |
| Thermostat: | +3 °C on / +12 ° | |
| Resistance tolerance: | -5 % / +10 % | |
| | | |

PRODUCT BENEFITS

- → prevent cold water, drainage and heating pipes from freezing and bursting open
- → prevent damage to persons, property and buildings in winter
- → easy installation owing to factory-assembled components
- → low operating costs, low maintenance requirements
- ightarrow automated removal of snow and ice

FROST PROTECTION HEATING CABLE WITH THERMOSTAT

10 W/m | 230 V | 2 m cold tail connection

| LENGTH | OUTPUT | VOLTAGE |
|---------|--------|---------|
| 2,0 m | 20 W | 230 V |
| 4,0 m | 40 W | 230 V |
| 6,0 m | 60 W | 230 V |
| 8,0 m | 80 W | 230 V |
| 10,0 m | 100 W | 230 V |
| 12,0 m | 120 W | 230 V |
| 14,0 m | 140 W | 230 V |
| 16,0 m | 160 W | 230 V |
| 18,0 m | 180 W | 230 V |
| 20,0 m | 200 W | 230 V |
| 24,0 m | 240 W | 230 V |
| 30,0 m | 300 W | 230 V |
| 42,0 m | 420 W | 230 V |
| 60,0 m | 600 W | 230 V |
| 80,0 m | 800 W | 230 V |
| 105,0 m | 1050 W | 230 V |
| 135,0 m | 1350 W | 230 V |
